

DIPLOMA

We will provide all students equitable opportunities for learning, an improved quality of teaching, and customized support to meet each student's needs. This universal access to technology will enhance students' creativity and innovation, helping them to become responsible citizens of the 21st century.

We believe...

1. By using technology to increase critical thinking skills, students will leave prepared for postsecondary success.
2. Technology is essential for our staff and students to be competitive both locally and globally.
3. Our students' cyber safety and data privacy should be respected and protected.
4. 24/7 access will increase opportunities for student driven/led instruction.
5. Technology provides equitable access and individualized learning opportunities for ALL students.
6. Technology facilitates problem-solving.
7. Technology enhances student creativity and innovation.
8. Digital integration increases communication and collaboration among students and adults.
9. Technology will help us become better stewards of our resources.
10. Technological knowledge is imperative to a successful future.
